

Collaboration and Generative-AI Disclosure

CS501 E1 — Assignment 1 — Mobility Lens

Priyanshu Singh | U73441029

Collaboration

Nobody to list. I worked on this alone.

Generative AI Use

I used Claude (claude.ai) for initial ideation and project setup. It helped me get the Android Studio project configured, fix build errors, and understand the Gradle structure. I reviewed all changes myself. I did not let it write the six dimension descriptions — I wrote those in my own words and I can explain any file if asked.
